

**GOLF**

Superstars

### **Course Set Up**

Either individually or in small groups let the children design a hole using the equipment supplied.

Can either set the full course up to play through each hole one after the other, or set one hole up at a time allowing for the children to redesign the hole in-between.

Can use any other equipment to make the holes harder/more complex

### **Play**

The children take it in turns to get their ball into the hole in as few shots as possible, keeping score of their running total. Coach can keep this on a score card.

Winner is the child who completes all the holes with the lowest score.
